To all users,

As of **Monday 1st March** the administration of the Waitemata Primary Options for Acute Care service will be moved to a regional administration centre. This centre will cover referrals for all patients residing in Auckland, Counties Manukau or Waitemata District Health Boards.

Updated Information and Guideline Manuals, referral forms and other information will be distributed to all practices, however if any additional resources are required, please phone or email us to request these. All users who currently refer electronically may continue doing so in the same manner. There will be some slight changes to claiming; however we aim to keep the referral process much the same as you will be used to.
